Dr. M. Demerec
Carnegie Institute of Washington
Cold Spring Harbor
Long Island, New York

Dear Dr. Demerec:

I have been wanting to write to you for some time to congratulate you on your daughter's achievement. I think it is great stuff. I know you must be very proud of her.

But now, the news I hear about you is even more exciting. Muller just got back from New York and told me about your success with mutation induction by means of carcinogens. This is one of the most exciting things I heard for a long time. You certainly deserve special congratulations for it, and I wish you the very best of luck in following up this great lead.

With very best wishes,

Cordially yours,

T. M. Sonneborn
